SUBJECT: Status Report on CIPC Projects and Activities--July 1986 [redacted] 25X1

1. Committee Meeting: The CIPC met on 28 July at 1500 hours. The primary agenda items were the revised China Follow-up Report and an interim report on NFIP Support to Contingency Operations. 2. The Vice Chairman of the NFIP Support to Contingency Operations Working Group introduced the interim report to the CIPC members. He briefly explained that the Working Group has found that the topic has more dimensions than originally perceived. Nevertheless, since late April when the Working Group first convened, progress has been made in examining the various issues. The interim report was prepared to inform the DCI and the CIPC of what the group has learned to date. [redacted] 25X1

3. The CIPC members subsequently engaged in a wide-ranging discussion of the report and its findings. The Committee concluded that certain sections of the report lacked specificity. Of particular concern was the role of the DDO in tactical HUMINT, the need for basic intelligence data, and the relationship of the various direct-support elements. The interim report was remanded to the working group to accommodate the substantive points expressed by the members. [redacted] 25X1
